About Us

Introduction

Interpipe has established itself as a trusted partner for infrastructure, construction, and industrial projects. Our products are engineered to meet the diverse and growing needs of clients across the residential, commercial, agricultural, and industrial sectors.

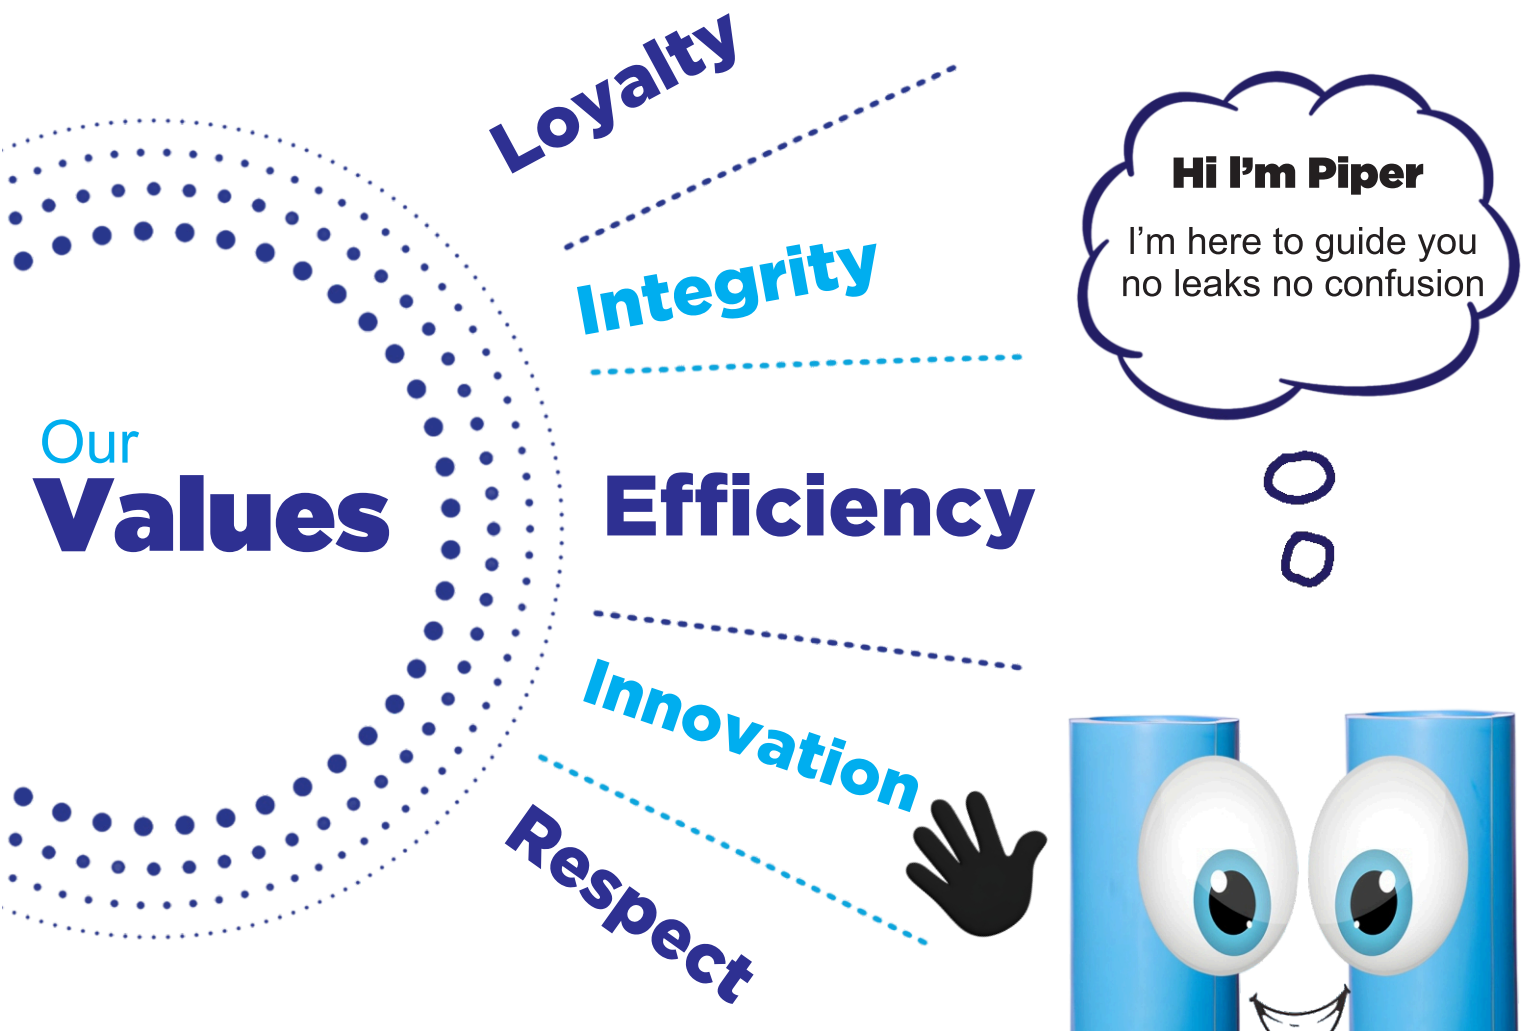

Our Workmanship

We prioritize quality in every aspect of our operations. Our manufacturing processes adhere to strict quality control measures at every stage, from raw material sourcing to the final product.

Our Mission: We are committed to flow

Our Vision: To be a market leader in providing total, quality solutions for water and sewer reticulation.

Our Products

. Our products are designed for durability, efficiency, and reliability, ensuring optimal performance in every application

OUR PRODUCT RANGE

PVC [Poly-vynl Chloride] Pipes

Our high quality PVC range from 19 mm to 315 mm pipes delivers superior strength, corrosion resistance and long lasting performance for reliable water and drainage solutions

HDPE [High Density Poly-Ethlene] Pipes

Our high performance HDPE pipes offer superior flexibility, durability and leak free reliability for modern water, gas and industrial piping system

Borehole Casings.

Our premium borehole casings provide exceptional strength, durability and long term protection to ensure safe efficient ground water extraction

Drainage & Sewerage Pipes.

Our pipes are engineered for long-term durability and exceptional cost efficiency, delivering reliable performance without compromising your budget.

Electrical Conduit Pipes.

Safely protect electrical wiring with durable and compliant solutions.

Why Choose Us?

01

Quality Assurance

Manufactured following local industry standards to ensure reliability.

02

Competitive Pricing:

Affordable solutions without compromising quality

03

Customizable Solutions:

Tailored pipes to meet specific client requirements

04

Reliable Supply Chain:

Strong distribution network for timely deliveries.

05

Technical Support:

Expert guidance for selecting the right pipes and installation methods

06

Sustainability:

Our PVC & Poly pipes are highly recyclable and have a reduced environmental footprint compared to offer alternatives

Did you know?

Our pipes are strong enough to handle serious pressure — but they'll never crack under pressure like your Monday mornings.

“At the core of our business lies a commitment to quality, reliability, and sustainability. We strive to provide piping solutions that not only meet industry standards but also exceed expectations—delivering excellence in every pipe, every connection, and every project.”

Our Clients

Before I roll off this page...
just remember — strong pipes don't
happen by accident.
They're engineered, inspected, and built
with purpose.
And yes... I personally keep an eye on things.
